ABOUT ME

Strategic Product Owner with 6+ years of BFSI experience delivering business-critical data solutions for global financial leaders like **American Express**. Expert in leading the end-to-end data lifecycle—from cloud migration to complex regulatory reporting (**FDIC 370, 2052A**). Proven track record of navigating **Category III banking transitions** with Category II-level daily reporting rigor. Specialized in leveraging **GenAI** to automate SQL development and bridging the gap between high-level compliance and scalable technical architecture.

CORE SKILLS

- **Product Strategy:** Strategic Backlog Management, MVP Scoping, Stakeholder Leadership, Agile/Scrum.
- **Regulatory & Compliance:** Liquidity Monitoring (LCR/NSFR/2052a), EBA Standards, Data Governance, Deposit Insurance (FDIC/DPS equivalents).
- **Data & AI Engine:** Advanced SQL, BigQuery, Python, GCP, AWS, GenAI (Prompt Engineering & Custom GPTs).
- **Visualization & Insights:** Tableau, Power BI, ThoughtSpot

WORK EXPERIENCE

AMERICAN EXPRESS

Product Owner – Digital Banking Data

Bengaluru, India

May 2024 – Present

- **Regulatory Transformation & Transition:** Delivered the data strategy for Amex's transition to **Category III banking status**. Enabled the migration from monthly to **daily 2052A reporting** (directly comparable to EBA LCR/NSFR daily standards).
- **Deposit Protection & Automation:** Led the transition from FDIC 360.9 to **FDIC 370**, by driving end-to-end gathering and ingestion of critical deposit and account holder data into the **Axiom (Nasdaq)** calculation engine.
- **Finance Modernization:** Defined the product vision and prioritized data migration to an organized, cloud-native data layer on **GCP**, consolidating fragmented reporting flows into a single enterprise standard to meet high-fidelity financial reporting and audit goals.
- **GenAI Innovation:** Built and deployed a custom **ChatGPT-based solution** to generate ready-to-run BigQuery SQL, reducing ad-hoc query development time by **40–50%** and increasing team-wide analyst productivity.
- **Data Governance:** Established automated quality controls and validation frameworks, resulting in a **25–35% reduction** in downstream data exceptions.
- **Executive Leadership:** Partner with Risk, Compliance, and Finance VPs to translate complex regulatory mandates into audit-ready, scalable data products.

MU SIGMA

Bengaluru, India

- **Strategic Delivery:** Managed BFSI analytics solutions for **Suncorp Australia** (Top-tier ASX-listed insurer/bank), processing multi-million record datasets for executive reporting and operational monitoring.
- **Compliance Intelligence:** Designed a **Claims Data Warehouse** and real-time Tableau dashboards to monitor regulatory compliance and ethical business practices within the Australian insurance landscape.
- **Operational Oversight:** Identified **35,300+ claims** from vulnerable customers, providing critical oversight that reinforced commitment to ethical standards and regulatory adherence.
- **Productivity Optimization:** Analyzed claim operations via ThoughtSpot to eliminate bottlenecks, delivering a **20% increase** in overall productivity and improved SLA adherence.
- **Lifecycle Management:** Managed the full SDLC (Discovery to Deployment) for complex reporting requirements, utilizing **Jira** and **Confluence** to bridge communication between business stakeholders and engineering teams.
- **Technical Automation:** Optimized data reliability by automating daily manual extracts and cleansing workflows using **SQL** and **Jenkins**, reducing manual intervention and improving data accuracy for downstream reporting.
- **Cross-Functional Leadership:** Collaborated within a high-performance team across **DB2** and **AWS** environments, translating abstract business problems into technical roadmaps that drove faster claim verifications and improved customer satisfaction.

EDUCATION

Visveswaraya Technological University

Bachelor of Engineering

Major in Computer Science;

Relevant Coursework: Data Analysis, Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

Bengaluru, India

Jul 2015 - Jun 2019

RECOGNITION

All Star Award – American Express (2025)

Recognized for successfully driving multiple enterprise daily and monthly regulatory reporting initiatives

Impact Award – Mu Sigma (2022)

Recognized for exceptional ownership, analytical depth, and delivery of high-impact BFSI analytics solutions.
